PURPOSE

Age-Friendly Communities is a global initiative started by the World Health Organization. It promotes healthy, accessible, inclusive communities where all people are valued, included & supported.

The Saskatchewan Age-Friendly Recognition Program recognizes success and encourages communities to take sustainable action towards becoming Age-Friendly. The Recognition Program is not an end in itself. Rather, it is a step on the continuum of strong encouragement and advocacy for communities to continue to be Age-Friendly through continuous reflection and action.

4 BASIC STEPS TO RECOGNITION

To be recognized for their Age-Friendly efforts, communities must complete the following 4 basic steps based on the WHO framework. These steps demonstrate a community's commitment to Age-Friendly principles through community engagement and action. Each step is designed to help communities increase awareness and gather support from key partners (e.g. citizens, local agencies, non-government organizations, and local business).

The process for the AFC approach includes the following steps:

1. Establish an Age-Friendly Committee.
2. Secure the support of your municipal government.
3. Assess the community, determining where Age-Friendly initiatives are needed.
4. Develop, publicize and implement an action plan.

APPLYING FOR AGE-FRIENDLY RECOGNITION STATUS

Applications are made using the Application Form found in the Community Recognition Guide. Please ensure that you have the most up-to-date application dated October, 2021. Applications will be evaluated by the Saskatchewan Seniors Mechanism. The names of communities that are determined to be ready for recognition will be recommended to the Government of Saskatchewan.

If a community is successful the community will receive:

- An Age-Friendly Recognition Award from the Province of Saskatchewan
- National recognition by the Public Health Agency of Canada

The application and recognition process usually takes place annually. However, the pandemic has forced everyone to make adjustments to priorities and possibilities. We hope that in the Fall of 2022, there may be government recognition of Age-Friendly communities that have been determined to be ready for recognition.

Local governments may choose to strengthen the Age-Friendly commitment through specific goals, objectives or policies in an official community plan or strategic plan.
 - Demonstrate broad-based community support from stakeholders in the community this can include community leaders, service clubs and organizations.

2. Established a steering committee to actively engage the community and ensure participation by older adults in the planning of Age-Friendly activities. The plan outlines the actions to be taken including activities, timing & resources (*human & financial*).
